INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

The following points summarize the bank's Lending Test performance.

- The loan-to-deposit (LTD) ratio is reasonable given the institution's asset size, financial condition, and assessment area credit needs.
- The institution originated and purchased a majority of its small business loans within the assessment area.
- The geographic distribution of small business loans reflects reasonable dispersion throughout the assessment area.
- The distribution of borrowers reflects reasonable penetration of loans among businesses of different revenue sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the Lending Test rating.

DESCRIPTION OF INSTITUTION

Legacy Bank (LB) is a single branch, state chartered, minority-owned depository institution located in Murrieta, California. LB is a new bank that opened for business as of June 10, 2022. This is the institution’s first CRA Performance Evaluation. The institution’s single location is in a middle-income census tract. LB is wholly owned by Legacy Bancorp, single-bank holding company owned by the Soboba Band of Luiseno Indian Tribe (Soboba). Additional LB affiliates include the Soboba Band of Luiseno Indians, the Soboba Economic Development Corporation, and Soboba Foundation. Examiner’s evaluated the bank’s CRA performance under the Interagency Small Institution Examination Procedures.

LB’s primary business focus is providing commercial lending and depository services to small and medium-sized businesses. Commercial loan products include secured loans, equipment financing, lines of credit, letters of credit, owner-occupied and investor real estate loans, Small Business Administration (SBA) loans, and credit cards. LB also has a Tribal Lending Division that offers tailored financial solutions for tribes and tribal members that includes Bureau of Indian Affairs and HUD 184 Lender Programs. The bank also offers a variety of deposit products for both business and consumer customers, including money market, checking, savings, and certificate of deposit accounts. Alternative retail banking services include online banking with bill payment, mobile banking, and P2P transfers. LB also operates two full-service ATMs, one of which is located on the Soboba Reservation. LB’s hours of operation and availability of products and services are designed to meet the convenience and needs of the institution’s customer base.

According to the December 31, 2023 Report of Condition and Income (Call Report), LB had total assets of \$62.2 million, total loans of \$34.9 million, total deposits of \$45.6 million, and total equity capital of \$14.9 million. The following table shows LB’s loan portfolio composition as of December 31, 2023.

Loan Portfolio Distribution as of 12/31/2023		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	602	1.7
Secured by Farmland	94	0.3
Secured by 1-4 Family Residential Properties	0	0
Secured by Multifamily (5 or more) Residential Properties	2,277	6.5
Secured by Nonfarm Nonresidential Properties	20,852	59.8
Total Real Estate Loans	23,825	68.3
Commercial and Industrial Loans	9,567	27.4
Agricultural Production and Other Loans to Farmers	1,362	3.9
Consumer Loans	150	0.4
Obligations of State and Political Subdivisions in the U.S.	0	0.0
Other Loans	0	0.0
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
Total Loans	34,904	100.0
<i>Source: Reports of Condition and Income</i>		

Examiners did not identify any financial, legal, or other impediments that affect the institution’s ability to meet assessment area credit needs.

DESCRIPTION OF ASSESSMENT AREA

The bank’s assessment area consists of the entirety of Riverside and San Bernardino Counties that together make up the Riverside-San Bernardino-Ontario Metropolitan Statistical Area (MSA) #40140.

Economic and Demographic Data

According to the 2020 U.S. Census, the assessment area consists of 48 low-, 282 moderate-, 362 middle-, 279 upper-income census tracts, and 13 census tracts with no income designation. The following table contains relevant assessment area demographic information.

Demographic Information of the Assessment Area

Riverside and San Bernardino Counties

According to the March 2024 Moody’s Analytics Report and 2020 U.S. Census Data, economic activity in Riverside and San Bernardino Counties is doing well. Job growth is demonstrating modest net gains. Overall unemployment increased from 4.1 percent in 2022 to 4.6 percent in 2023. This was due to moderate labor force gains. While the area has experienced employment reduction

in the transportation and warehousing sectors, there has been steady job growth in the healthcare, government, and construction sectors. Increased military defense spending has also positively assisted the region.

The area has seen above-average population growth. Further, the area has experienced positive net migration with most people coming from Los Angeles and Orange Counties. Elevated inflation and housing prices continue to be a concern for the area, especially due to the lack of higher paying jobs to advance economic growth. Area strengths include comparative advantage in transportation, distribution, and warehousing, lower business and housing costs than other nearby areas, a young population, and positive net migrations. Area weaknesses include lack of a vibrant central downtown core, lack of high-wage industries, and low educational achievement. Area employment is concentrated in education and health services, government, and transportation/utilities. The area's top employers are Stater Brothers Markets, Arrowhead Regional Medical Center, and U.S. Marine Corps. Air Ground Combat Center.

Competition

LB operates in a highly competitive market with a significant number of institutions in the market area, many of whom are much larger than LB. According to the June 20, 2023 FDIC Deposit Market Share Report, there are 38 other financial institutions operating 467 offices in LB's assessment area with total deposits of \$76.6 billion. LB's deposit market share is 0.04 percent and ranks 33rd in the assessment area. The institution is only one of four operating in the area that has all locations within the Riverside-San Bernardino-Ontario MSA. The top five institutions control approximately 77.8 percent of the deposit market share with a combined \$59.7 billion in total deposits.

Community Contacts

Examiners conducted a community contact interview with a representative from a new local nonprofit affordable housing organization serving the bank's assessment area. The organization supports the assessment area by providing safe and affordable housing alternatives through advocacy and education. The profile of those serviced include immigrants, seniors, foster youth, veterans, and other persons. The organization also supports the Bank On initiative, attempting to close the gap between the banked and unbanked communities by partnering with financial institutions to offer products and services to serve the unbanked and underbanked communities served. The contact stated that while nearly 200,000 Bank On products are open in the assessment area approximately 20 percent of the population remains unbanked or underbanked. Some of the unbanked communities' impediments in establishing a banking relationship includes relatability with banks, lack of sufficient credit history to obtain lending products, or derogatory remarks prohibiting access to deposit accounts.

Credit Needs

Considering area demographics, economic data, and discussions with institution management and a community contact, examiners determined that affordable housing and small business credit are the primary area credit needs. Although affordable housing represents a community need, opportunities

are limited based on a low inventory of available housing as well as deteriorating affordability. Business demographics support the need for small business loans with 66.4 percent of business employing between 1 and 4 people and 89.3 percent of businesses with revenues of less than \$500,000.

SCOPE OF EVALUATION

General Information

Examiners used the Interagency Small Institution Examination Procedures to evaluate LB’s CRA performance. This evaluation covers the period from when the bank opened for business on June 10, 2022 to the current evaluation date of April 15, 2024.

Activities Reviewed

Examiners determined that the institution’s major product line is small business loans. This conclusion is supported by LB’s business strategy as well as by the number and dollar volume of loans originated during the review period. LB is not a HMDA reporter originating only one multifamily residential mortgage loan for \$2.3 million during the review period. In addition, LB originated one small farm loan totaling \$100,000 during the review period. Examiner’s relied upon an electronic data download to determine loan products as well as the number and dollar volume of loans reviewed.

Examiners reviewed the universe of all small business loans originated or purchased in 2022 and 2023. During 2022 and 2023, LB originated and/or purchased 19 small business loans totaling \$12.2 million. The following table shows the number and dollar volume of small business loans by year.

Loan Products Reviewed				
Loan Category	Universe		Reviewed	
	#	\$(000s)	#	\$(000s)
Small Business				
2022	5	2,260	5	2,260
2023	14	10,043	14	10,043
Total	19	12,303	19	12,303
<i>Source: Bank Data</i>				

Examiners compared the universe of small business loans to 2022 and 2023 D&B data for borrower profile and geographic distribution of loans in the institution’s assessment area. The D&B data is based on geographic location using the 2020 U.S. Census data boundaries for the total businesses in the assessment area and the reported gross annual revenues (GAR) of those businesses.

Examiners reviewed both the number and dollar volume of small business loans. While the number and dollar volume are presented, examiners emphasized the number of loans, as it is a stronger indicator of the number of businesses served.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

LB demonstrated reasonable performance under the Lending Test. The Lending Test performance is supported by the LTD ratio, assessment area concentration, geographic distribution, and borrower profile.

Loan-to-Deposit Ratio

LB's LTD ratio is reasonable given the institution's asset size, financial condition, and assessment area credit needs. The bank's LTD ratio averaged 70.6 percent calculated from Call Report data over the past seven calendar quarters from June 30, 2022 to December 31, 2023. The ratio ranged from a low of 0.0 percent as of June 30, 2022 to a high of 174.1 percent as of December 31, 2022. The elevated fluctuation is attributed to the bank's opening of its first branch in June of 2022 and the need to borrow funds to support initial lending.

Examiners identified two similarly-situated institutions operating within the assessment area with a substantially similar lending focus. The following table shows LB's average net LTD ratio compared to the two similarly situated institutions.

Loan-to-Deposit (LTD) Ratio Comparison		
Bank	Total Assets as of 12/31/2023 (\$000s)	Average Net LTD Ratio (%)
Legacy Bank	62,155	70.59
Similarly-Situated Institution #1	446,831	50.65
Similarly-Situated Institution #2	36,054	77.85
<i>Source: Reports of Condition and Income 06/30/2022 – 12/31/2023</i>		

LB maintained a net LTD ratio within the ratios of the identified similarly-situated institutions. The bank's deposit and loan growth have steadily increased over the previous four quarters resulting in an average net LTD ratio of 60.3 percent during that time.

Assessment Area Concentration

LB made a majority of its small business loans within its assessment area by both number and dollar volume. The following table shows the lending performance during the evaluation period.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total	Dollar Amount of Loans				Total
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%	
Small Business										
2022	4	80.0	1	20.0	5	1,439,800	63.7	820,000	36.3	2,259,800
2023	8	57.1	6	42.9	14	5,775,000	57.5	4,268,200	42.5	10,043,200
Subtotal	12	63.2	7	36.8	19	7,214,800	58.6	5,088,200	41.4	12,303,000
Total	12	63.2	7	36.8	19	7,214,800	58.6	5,088,200	41.4	12,303,000
<i>Source: Bank Data; Due to rounding, totals may not equal 100.0%; Dollar amounts for Small Business, Small Farm and Consumer loans are multiplied by 1000.</i>										

The decrease in 2023 lending inside the assessment area is reflective of the bank’s status as a new institution competing with already established institutions serving the assessment area.

Geographic Distribution

The geographic distribution of small business loans reflects reasonable dispersion throughout the assessment area. The following table illustrates the bank’s geographic distribution for 2022 and 2023 small business loans within the assessment area compared to D&B data.

Geographic Distribution of Small Business Loans					
Assessment Area: Riverside-San Bernardino MSA					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low					
2022	2.8	1	25.0	19,800	1.4
2023	2.8	0	0.0	0	0.0
Moderate					
2022	23.3	0	0.0	0	0.0
2023	23.2	3	37.5	1,920,000	33.2
Middle					
2022	37.1	2	50.0	720,000	50.0
2023	37.2	3	37.5	2,155,000	37.3
Upper					
2022	36.1	1	25.0	700,000	48.6
2023	36.0	2	25.0	1,700,000	29.4
Not Available					
2022	0.7	0	0.0	0	0.0
2023	0.7	0	0.0	0	0.0
Totals					
2022	100.0	4	100.0	1,439,800	100.0
2023	100.0	8	100.0	5,775,000	100.0
<i>Source: 2022 & 2023 D&B Data; Bank Data; "--" data not available. Due to rounding, totals may not equal 100.0%</i>					

LB's lending in low-income census tracts is approximately 22.0 percentage points higher than the percentage of businesses; however, this percentage is made up of only one loan. Further, the bank did not originate any loans in moderate-income census tracts in 2022. LB was only in business for approximately six months in 2022, of which the first three months were largely focused on establishing operations and bringing in deposits. In 2023, the bank did not originate any loans in low-income census tracts; however, lending exceeded the percentage of businesses in moderate-income census tracts by 14.3 percentage points. Further, the number of loans originated in moderate-income tracts supported the higher percentage. Overall, LB's geographic distribution of small business loans is reasonable considering its limited time in business.

Borrower Profile

The distribution of borrowers reflects, given the assessment area demographics, reasonable penetration among businesses of different revenue sizes. The following table illustrates the bank's 2022 and 2023 small business loans by GAR.

2020 Based Census Information (Years 2022 and Forward)

The current FFIEC Census File uses the 2020 Census Demographic and Housing Characteristics (DHC) file for the majority of the population-related fields and the 2016-2020 American Community Survey (ACS) for most of the remaining fields.

[Changes for Historical Files](#) | [Census Demographic Information](#) | [Census Income Information](#) | [Census Population Information](#) | [Census Housing Information](#)

Changes for Historical Census Files

2024 – FFIEC data was updated to incorporate the MSA/MD boundary changes from [OMB Bulletin 23-01](#).

County changes

All 8 counties in Connecticut were replaced with 9 new planning regions as per the [Federal Register Notice](#) released on June 6, 2022. These changes are now incorporated into the FFIEC data.

2023 – FFIEC flat files were updated to use DHC data in place of Redistricting data. Fields for the four island areas were also populated. Redistricting data field numbers are still included in the documentation for ease of use.

2022 – Changes to several of the ACS tables used by the FFIEC have resulted in significant changes to the fields available in the 2022 Census Reports. Please review the flat file definitions documentation carefully. Additionally, the 2020 Demographic Housing Characteristics (DHC) files are not yet available, so this year uses the 2020 Census Redistricting file where appropriate.

County changes

The Valdez-Cordova Census Area (02-261) in Alaska was split to form the Chugach Census Area (02-063) and the Copper River Census Area (02-066).

The following sections define the fields available via the FFIEC Online Census Data System.

Census Demographic Information

Tract Income Level - This corresponds to tract classifications as defined by the HMDA and CRA regulations. This field is based on the tract median family income (MFI) % (defined below). If the tract MFI % is:

- < 50% (but not 0%), then the income level is Low.

- $\geq 50\%$ but $< 80\%$, then the income level is Moderate.
- $\geq 80\%$ but $< 120\%$, then the income level is Middle.
- $\geq 120\%$, then the income level is Upper.
- 0%, then the income level is Not Known.

Distressed or Underserved Tract - A 'Yes' in this column indicates that the tract is designated as a Nonmetropolitan Middle-Income Distressed or Underserved geography based on criteria designated by federal banking and thrift regulators.

Distressed nonmetropolitan middle-income geographies are those located in counties with: (1) an unemployment rate of at least 1.5 times the national average; (2) a poverty rate of 20 percent or more; (3) a population loss of 5% or more in the 5-year period preceding the most recent decennial census; or (4) a population loss of 10% or more in the 10-year period preceding the most recent decennial census.

Underserved nonmetropolitan middle-income geographies are those designated with urban influence codes numbered 7, 10, 11, or 12 as defined by the Economic Research Service of the United States Department of Agriculture.

Tract Median Family Income % - This compares the tract level median family income (MFI) to the MSA/MD level MFI. It is calculated by dividing the 2020 tract MFI by the 2020 MSA/MD MFI. For tracts located outside of an MSA/MD, the MFI used in the denominator is the statewide non-MSA/MD MFI.

2023 FFIEC Est. MSA/MD non-MSA/MD Median Family Income - This is the estimated median family income as determined by FFIEC for each MSA/MD in the United States and for each state's non-MSA/MD area. It is derived using the U.S. Department of Housing and Urban Development's (HUD) methodology published on its web site. This field changes annually.

2023 Est. Tract Median Family Income - This is the census tract's estimated median family income for each year, based on the FFIEC estimate for the MSA/MD or non-MSA/MD area where the tract is located. It is calculated by multiplying the tract's MFI % by the annual FFIEC MSA/MD MFI. This field changes annually.

2020 Tract Median Family Income - This is the census tract's median family income based on the 2016-2020 ACS. It is updated every 5 years.

Tract Population - This is the census tract's population based on the 2020 DHC file.

Tract Minority % - This is the percentage of the tract's total population minus the white alone population according to the 2020 DHC file. It is calculated by dividing the minority population by the tract population.

Minority Population - This is the census tract's total population minus the white alone population based on the 2020 DHC file.

Owner-Occupied Units - This is the number of housing units that were lived in by the owner of the unit. This number was determined by the 2016-2020 ACS.

1- to 4-Family Units - This is the number of housing units that hold less than 5 families. Condominiums, townhouses, single-family homes, mobile homes, boats, RVs, and vans are included in this number. Apartment buildings are not included in this number. This number was determined by the 2016-2020 ACS.

Census Income Information

Tract Income Level - This corresponds to tract classifications as defined by the HMDA and CRA regulations. This field is based on the tract median family income (MFI) % (defined below). If the tract MFI % is:

- < 50% (but not 0%), then the income level is Low.
- \geq 50% but < 80%, then the income level is Moderate.
- \geq 80% but < 120%, then the income level is Middle.
- \geq 120%, then the income level is Upper.
- 0%, then the income level is Not Known.

2020 MSA/MD MFI Statewide non-MSA/MD Median Family Income - This is the median family income for the MSA/MD in which the tract is located. If the tract is not in an MSA/MD, this MFI is for all portions of the state not in MSA/MDs. The values for MSA/MD MFI and statewide non-MSA/MD MFI are from the U.S. Census Bureau's 2016-2020 ACS 5-year estimates. It is updated every 5 years unless a boundary change released by OMB (and adopted by the FFIEC) results in a recalculation of the MFI.

2023 FFIEC Est. MSA/MD non-MSA/MD Median Family Income - This is the estimated median family income as determined by FFIEC for each MSA/MD in the United States and for each state's non-MSA/MD area. It is derived using the U.S. Department of Housing and Urban Development's (HUD) methodology published on its web site. This field changes annually.

% Below Poverty Line - This is the number of people in the tract living below the poverty level divided by the tract's total population. This percentage was determined by the 2016-2020 ACS results and the Census' definition of the poverty level.

Tract Median Family Income % - This compares the tract level median family income (MFI) to the MSA/MD level MFI. It is calculated by dividing the 2020 tract MFI by the 2020 MSA/MD MFI. For tracts located outside of an MSA/MD, the MFI used in the denominator is the statewide non-MSA/MD MFI.

2020 Tract Median Family Income - This is the census tract's median family income based on the 2016-2020 ACS. It is updated every 5 years.

2023 Est. Tract Median Family Income - This is the census tract's estimated median family income for each year, based on the FFIEC estimate for the MSA/MD or non-MSA/MD area where the tract is located. It is calculated by multiplying the tract's MFI % by the annual FFIEC MSA/MD MFI. This field changes annually.

2020 Tract Median Household Income - This is the median income of all households in the tract based on the 2016-2020 ACS. Whereas a family is defined as two or more related persons living in the same residence, a household includes all residences, even those for single people or unrelated groups of two or more.

Census Population Information

Tract Population - This is the census tract's population based on the 2020 DHC file.

Tract Minority % - This is the percentage of the tract's total population minus the white alone population according to the 2020 DHC file. It is calculated by dividing the minority population by the tract population.

Number of Families - This is the number of families in the tract as determined by the 2016-2020 ACS. A family is defined as two or more related people living together.

Number of Households - This is the number of households in the tract as determined by the 2016-2020 ACS. A household is any residence, including those occupied by single people and unrelated groups of two or more. By definition, all families are also considered households, but not all households are families.

Non-Hisp White Population - This is the number of people in the tract that listed themselves as non-Hispanic White on the 2020 DHC file.

Tract Minority Population - This is the census tract's total population minus White alone population based on the 2020 DHC file.

American Indian Population - This is the number of people in the tract that listed themselves as non-Hispanic American Indian or Alaskan Native on the 2020 DHC file.

Asian/Hawaiian/Pacific Islander Population - This is the number of people in the tract that listed themselves as non-Hispanic Asian or Pacific Islander on the 2020 DHC file.

Black Population - This is the number of people in the tract that listed themselves as non-Hispanic Black/African-American on the 2020 DHC file.

Hispanic Population - This is the number of people in the tract that listed themselves as Hispanic only on the 2020 DHC file.

Other Population/Two or More Races - This is the number of people in the tract that listed themselves as non-Hispanic and some other race plus non-Hispanic and two or more races on the 2020 DHC file.

Census Housing Information

Total Housing Units - This is the total number of occupiable housing units in the tract as determined by the 2016-2020 ACS.

1- to 4-Family Units - This is the number of housing units that hold less than 5 families. Condominiums, townhouses, single-family homes, mobile homes, boats, RVs, and vans are included in this number. Apartment buildings are not included in this number. This number was determined by the 2016-2020 ACS.

Median Housing Age (Years) - This is the median age of all housing units in the tract (as of 2020) as determined by the 2016-2020 ACS.

Inside Principal City? - This is a yes/no indicator of whether this tract is part of the MSA/MD's principal city.

Owner-Occupied Units - This is the number of housing units that were lived in by the owner of the unit as determined by the 2016-2020 ACS.

Vacant Units - This is the number of housing units that are not occupied as determined by the 2016-2020 ACS.

Owner-Occupied 1- to 4-Family Units - This is the number of housing units that have less than 5 residences and were occupied by the property owner as determined by the 2016-2020 ACS.

Renter Occupied Units - This is the number of housing units that are occupied by someone other than the owner as determined by the 2016-2020 ACS.
